

RUPAK SHRESTHA

Full Stack Web Developer

Leyton, London | +44 07345 130390 | im.rupak23@gmail.com | github.com/iamrupakstha | linkedin.com/in/rupak-shrestha

PROFILE

Full stack web developer and IT instructor with hands-on experience across HTML, CSS, JavaScript, React and Node.js, plus a background teaching computer hardware, MS Office and accounting software. Comfortable working independently on freelance builds and looking for a part-time role in London to apply and grow these skills alongside study or other commitments.

KEY SKILLS

- **Frontend:** HTML5, CSS3, JavaScript, React, Bootstrap
- **Backend:** Node.js, Express.js, MongoDB, REST APIs, PHP, MySQL
- **Design & Tools:** Figma, Photoshop, Canva, Git & GitHub, MS Office
- **Other:** IT/computer hardware support, technical instruction & training, customer-facing communication

WORK EXPERIENCE

Computer Instructor — British Language & IT Institute

February 2024 – August 2025

- Delivered training in computer hardware, MS Office, graphic design and accounting software to students of varying skill levels.
- Explained technical concepts clearly to beginners, building strong communication and patience for teaching/support-style roles.
- Produced instructional and troubleshooting materials used across multiple classes.

Freelance Web Developer

2023 – Present

- Designed and built full websites for independent clients (portfolios, an educational platform and a school website), from initial design through to deployment.
- Worked directly with clients to gather requirements, manage revisions and deliver on time.

Content Creator — IT SERVER (YouTube)

- Produce tutorials on programming, web development, computer fundamentals and MS Office, breaking down technical topics for a general audience.

SELECTED PROJECTS

- **E-Commerce Platform** — full online shopping site with authentication, product management and payment integration (HTML, CSS, JS, PHP, MySQL).
- **Institute Management System** — productivity app with drag-and-drop scheduling and real-time updates (HTML, CSS, JS, PHP, MySQL).
- **British Institution Website** — educational platform with certificate verification, course management and a student portal (React, Node.js, MongoDB).
- **Weather App & To-Do App** — JavaScript apps using third-party API integration for forecasts and task tracking.

EDUCATION

Diploma in IT Engineering

Kankai Poly-Technic Institute, Jhapa — August 2022 – December 2025

BEng. (Hons) Software Engineering

University of Greenwich, London — September 2026 - Present

AVAILABILITY

Based in Leyton, East London (E10) — happy to travel across London. Seeking part-time hours (evenings/weekends/flexible) in web development, IT support, or a related tech role.
